POSITION

**ENGINEER –
CHASSIS STRUCTURES**

MINIMUM EXPERIENCE

5 years

OCCUPATION TYPE

Full Time

JOB DESCRIPTION

Develop structural and elastokinematic architectures for premium EV platforms. Design, analyze, develop, and release inboard chassis system components (e.g. subframes, links) to achieve vehicle program targets.

WORKING AT INDI EV

Other than offering an endless supply of snacks and coffee, we provide our people with full medical, dental, and vision benefits. Work/life balance is also key, so we offer solid paid vacation time, and a compensated week off between Christmas and New Years. All jobs are located onsite at our headquarters in Los Angeles.
